## **Staffing Company Announces Name Change to Unify Its Global Brand**

*Allegis Group changes its U.K. and Ireland division names to Aerotek*

**Wokingham, Berkshire – February 10, 2009** – Allegis Group, a leading international staffing company throughout the United Kingdom and Ireland, has officially changed the names of its Engineering, Sciences and Professional staffing services divisions to Aerotek. The name change took effect on January 1 of this year to unite its European operations with the global Aerotek brand.

Aerotek, which is a member of Allegis Group, operates more than 150 non-franchised offices throughout the United States, Canada and Europe. The 25-year-old staffing company has been recognized numerous times as the top provider in engineering and technical staffing solutions in the U.S.

In January 2008, Allegis Group offices in the Netherlands and Germany also made the official name change to Aerotek. Aerotek's European offices will continue serving the staffing needs of local companies by providing contract, contract-to-hire and permanent positions in engineering, scientific, administrative, customer service and corporate professional skill sets.

The divisional name change is part of an international strategy to promote the company's high-quality reputation for technical staffing under the Aerotek brand. The growing global economy and increasing need for international companies to work with a staffing partner that can provide staffing solutions across countries further supported the decision for the company's international offices to operate under a unified brand and company name.

"We are confident that the alignment of our global service lines with the Aerotek brand will allow us to continue to deliver the highest levels of service to our customers and candidates," said Todd Mohr, Managing Director of Aerotek for Europe.

Aerotek was established in the United States in 1983 as a staffing company catering to the needs of the aerospace and defence industry. Over the years, Aerotek diversified and expanded its niche service offerings to include other technical, commercial and professional staffing services through several mergers and acquisitions. Today the Aerotek name, most well-known in the United States, continues to expand its presence and staffing services throughout Europe.

### **About Aerotek**

Aerotek is a leading provider of technical, professional and industrial recruiting and staffing services. Established in 1983, Aerotek is an operating company of Allegis Group, the sixth largest staffing company worldwide.
